

**<sup>14</sup>C & Archaeology**  
**7th International Symposium 8-13 April 2013, Ghent, Belgium**

At the last meeting in Cyprus the consensus was to have the next meeting in 2013 so that the AMS conference, the Radiocarbon conference and <sup>14</sup>C & archaeology meeting each will be held in a different year.

During the Cyprus meeting the Royal Institute for Cultural Heritage (Brussels, Belgium) and The Department of Archaeology of the Ghent University (Belgium) proposed to organize this meeting.

The conference will take place in the building of the Department of Archaeology in Ghent. The conference will start with an opening reception on Monday 8 April 2013, lectures will be held from Tuesday till Friday and on Saturday 13 April an optional conference tour will be organized.
